Greetings

Thank you for the 2nd Takai IVR Live Symposium (TIP) & Introduction of the 3rd Takai IVR Live Symposium (TIP)

The 2nd Takai IVR Live Symposium (TIP), which was held on February 11 (Sun.) and 12 (Mon.), 2024, has successfully concluded with about 130 attendees.

We deeply appreciate your support and cooperation.

At the 2nd symposium, we have expanded the dates to two days and performed 8 live case demonstrations not only for physicians of cranial nerve field, but also for all medical staff under the theme of "Neuroendovascular Therapy and Interventional Radiology from Neuroradiologists' Perspective".

It was a meaningful symposium with attendance from the young to the expert of physicians and co-medical professionals who are involved in IVR.

The 3rd Takai IVR Live Symposium (TIP) is rescheduled to be held on Saturday, December 6 and Sunday, December 7, 2025.

We look forward to your attendance in spite of inconveniences caused by this change of the schedule.

Katsutoshi Takayama
Representative Course Director,
Takai IVR Live Symposium (TIP)
